

While I am Still Young

Oh how I love to live my life
The laughter, the singing, the dancing
The sun is shining even when it rains
Nothing gets me down - that is my way

Oh how I like to be in love
The kissing, the caring, the enjoying
The moonlit walks along the lake
Stars twinkling from far above

Oh how I adore the flowers in bloom
The colors, the aroma, the beauty
A garden full of nature's miracles
Underneath my bedroom window

Oh how I love to be alive
The laughing, the kissing, the flowers
A horn of plenty just for me
Let it last while I am still young
